

HORNETSECURITY

TRAINING FOR THE

CERTIFIED ENGINEER

Configure and Administer Hornetsecurity Services

For successful participation in this course, comprehensive knowledge of the email service and security environment is required, and participation in our Technical Basics training is recommended.

🎯 OBJECTIVE

This two-day course provides the necessary basic knowledge for the configuration and administration of Hornetsecurity's Email Security Services, and is a prerequisite for qualification to the partner levels Premium Partner, Excellence Partner and Excellence Provider, MSP Gold and MSP Platinum.

📋 TARGET GROUP

This course is designed for administrators who have already come into contact with Hornetsecurity services, who want to perform and support installations, and who want to refresh and expand their product knowledge.

🕒 EVENT DETAILS

Event duration

2 days, 4 hours each (online seminar)

📎 ORGANIZATIONAL

This training is offered in English and German. The maximum number of participants is limited to ten to ensure optimal learning and consolidation. Passing a final exam is a prerequisite for successful completion.
