

MAILBOX MIGRATION TOOL

Migrate your on prem environment to the Microsoft 365 cloud with 365 Total Protection!

365 Total Protection makes switching to the cloud easy: Migrate on prem emails, contacts and appointments easily and securely to the Microsoft Cloud with the integrated Mailbox Migration Tool and benefit from all 365 Total Protection's features.

Comfortable & Transparent

We'll keep you updated on every status change or any errors during the entire migration process.

Easy & Timesaving

Manually migrating every single mailbox can take a lot of time. With the Mailbox Migration Tool, it only takes a few steps until you're ready to migrate your mailboxes.

Safe & Protected

As soon as an error occurs, you get notified. Our "DeltaSynch" feature prevents email duplication. All data, that has accumulated in the source system during the migration process, is subsequently transferred.

WHAT DOES THE MAILBOX MIGRATION TOOL TRANSFER?

Emails

Contacts

Appointments

MIGRATE TO THE CLOUD IN THREE EASY STEPS
